INTERNATIONAL GRADUATE STUDENT ADMISSIONS

Graduate Programs

Our graduate programs, with their interdisciplinary and dynamic curriculums, aim to produce and share the knowledge of the society, nature and world we live in. An active advising system, which takes into consideration the students' inclinations, has the goal of developing the students' critical looking skills and helping them gain intellectual depth. Our graduate programs support the growth of academics who bring together their social and human sensitivity with their research interests.

INTERNATIONAL GRADUATE STUDENT ADMISSIONS

All Istanbul Şehir University graduate programs mentioned below are Master's programs. The normal study duration of these programs is 2 academic years.
